PREVIOUSLY SUBMITTED REFERENCES

To Whom It May Concern:

Prior to the mailing of the Notice of Allowance on the present application, Applicant submitted information disclosure statements (IDSs) on Oct. 31, 2006, Nov. 3, 2006, and Nov. 4, 2006 that included both references previously submitted but which had not been considered, and some new references. The PAIR system now shows that two of the references cited in the IDSs cited above have now been considered. However, most of the references from the above cited IDSs remain unconsidered. Accordingly, it is respectfully requested that the Examiner timely reconsider the patentability of the present application in light of the references submitted in the above cited IDSs (all of which are available in the PAIR system). Note that copies of all foreign and non-patent references cited in the IDS filed concurrently herewith were previously submitted with these IDS.

To assist the Examiner, the undersigned Applicant has reviewed the above cited IDSs, and has determined that the cited reference: U.S. 5,86,7495 filed 1999-02-02 by Elliott was previously considered, and that the reference: PCT Patent Publication WO 94/15412 was inadvertently cited twice but there is no record of the Examiner considering this reference. All other references cited in the above-identified IDSs have apparently **not** been considered.

If there are any questions regarding this matter, please contact the undersigned Applicant by phone. Note, it is believed that **no fees are due** for this matter. However, if it is determined

Respectfully submitted,
